

Environmental Sampling Workshop

www.equipetraining.co.uk

TerraConsult

Introduction

The course comprises a comprehensive overview of the process involved in environmental sampling of a range of materials and will include sample media, sampling equipment, on site testing and storage/transport together with an introduction to available guidance.

Equip Training are running one day workshops which have two objectives:

1. To provide delegates with an understanding of the practical and technical aspects of taking environmental samples together with an introduction to the relevant UK guidance.
2. Demonstrate and gain hands on experience in the use of a range of different sampling and testing equipment.

The workshop will comprise a series of lectures on sampling soils, waters and gas (ground gas, ambient air including fibres) followed by practical sessions.

Course Arrangements

Equip have partnered with TerraConsult Limited to provide this course and Chris Eccles is the presenter. He is an engineering geologist with over 20 years experience in site investigation, chemical testing and assessment of potentially contaminated land. Chris is an accredited Specialist in Land Condition (SiLC); this qualification is the UK's only recognised professional qualification in the assessment and management of contaminated land.

Outline Programme

09:00 Registration & Refreshments
09:30 Lecture - Background & Objectives of Environmental Sampling
10:30 Lecture - Water Sampling
11:00 Morning Break & Practical (Water Sampling)
11:45 Lecture . Sampling of Soil, Materials, Fibres, Gas & Vapour
12:45 Buffet Lunch
13:30 Practical (Gas & Vapour Sampling)
14:15 Lecture . Sample Strategy & guidance
15:30 Conclusions
16:00 Close

Who should attend ?

A must for all practicing Geologists, Engineers and Field Technicians who are or may become involved with sampling and specifying investigations on potentially contaminated sites. This course will greatly enhance understanding of the issues relating to environmental sampling and on-site testing.
